

Britta Karlsson Educational Webinar Series

IFBLS is pleased to announce the latest webinar in our series of Britta Karlsson Educational Webinars:

Donor-Derived Cell-Free DNA (dd-cfDNA) for Transplant Assessment

Friday, 22nd May 2026

10:00 am - 11:00 am (Pacific Time - USA and Canada)

[\(search the Time Zone in my country\)](#)

This webinar introduces cell-free DNA (cfDNA) technology and its applications in molecular diagnostics. It focuses on organ health, highlighting how donor-derived cfDNA serves as a biomarker to detect molecular signs of transplant rejection.

Pre-registration is required to attend this free webinar.

[Register early](#) - Space is limited to 500 participants – early registration is encouraged.

Certificates of Attendance will be emailed one week after the webinar to participants whose National Associations are current IFBLS members in good standing. (Certificates will not be issued to attendees from non-member associations).

Keynote Speaker:

Dr. Jing Xie
Senior Laboratory Director
Natera
San Carlos, California
USA

Jing Xie, PhD, FACMG, is Senior Laboratory Director of Organ Health at Natera, specializing in next-generation sequencing and cell-free DNA testing. She is board-certified in clinical molecular genetics by ABMG and has extensive experience in clinical genomics, assay development, and laboratory leadership, with a strong focus on advancing precision medicine.

This 60-minute webinar is a great opportunity to learn from our international colleagues and apply their knowledge to your own practice.

Pre-registration is required to attend this [free webinar](#).

Certificates of Attendance will be emailed after the webinar (allow one-week delivery) only to attendees whose associations are paid IFBLS members in good standing. Attendees from non-IFBLS member associations will not receive certificates.

Visit the IFBLS website for more details www.ifbls.org

[Register early](#) - Space is limited to 500 participants.

We look forward to your participation in this event!

INTERNATIONAL FEDERATION OF BIOMEDICAL LABORATORY SCIENCE
THE GLOBAL VOICE OF BIOMEDICAL LABORATORY SCIENTISTS

The International Federation of Biomedical Laboratory Science (est. 1954) is the world's widest reaching international organization for Biomedical Laboratory Scientists, bringing the profession, the professionals and health priorities to the world stage.
