

# 1st European Conference on Biomedical Laboratory Sciences Education (ECBLSE), Coimbra (Portugal)

**Thursday, 11 May 2023**

It is with great pleasure that we invite you to the 1st European Conference on Biomedical Laboratory Sciences Education (ECBLSE) on the 11th of May, 2023 in Coimbra, Portugal.

The main object of the conference is to explore new routes between laboratory and classroom, to improve teaching and learning in Biomedical Laboratory Sciences.

Features of evidence-based knowledge and how to implement research in education will be thematized. Good practice on utilizing digital simulation and games for learning will be shared. Finally, future perspectives on Scholarships of Teaching and Learning (SoTL) for Biomedical Laboratory Sciences in Europe will be discussed.

The event also includes a practical workshops, where the participants will discuss the topics in question and forward their recommendations to the European education of Biomedical Laboratory Sciences.

The registration can be done through the BLS academy website from Biotrick Project <https://www.blsacademy.net/> at the link, <https://www.blsacademy.net/events/1st-european-conference-on-biomedical-laboratory-sciences-education-ecblse-exploring-new-routes-between-laboratory-and-classroom/>. The registration is free and the deadline is 21<sup>st</sup> of April. The participants could also submit abstracts in the framework of the conference to be presented in e-poster format.

We hope that this event could be an opportunity to meet again and move forward with knowledge in BLS education.
